STATEMENT BY MS. GLORIA MANAIGO,
INSTALLATION CHIEF
SOLID WASTE SERVICES
CHESTER AVENUE SUBSTATION

During and immediately following the ice storms that took place in the Atlanta area on January 30, 2000 and February 5, 2000, approximately ten (10) private and (1) city vehicle were damaged while parked on City of Atlanta property. Large pieces of ice fell down from the radio tower into the employees' parking lot here at 315 Chester Avenue, and damaged these vehicles belonging to employees, while they were at work.

After the first storm, when the ice started to melt, a few vehicles were damaged. We moved city vehicles and private vehicles away from the area where the ice was falling. Ice fell all that week following the ice storm, damaging other vehicles. Later during the second ice storm, a week later, the ice fell in all directions, damaging other employees' personal vehicles.

We moved city vehicles and employees moved personal vehicles, but some cars were still damaged. There was nothing else we could do to prevent this incident. Our employees work at this location seven (7) days per week, day time and at night. And we work even longer hours when bad storms hit the city, because we participate in emergency management, i.e., moving trees that fell on the street, in order to keep streets clear of tree limbs and other debris that gets blown onto the street during storms.
